

ORDERED HUSBAND

To Drink Poison--"Drink, One of Us Must Die"--Shot  
His Legal Rival and When Pursued  
Killed Himself.

Cedartown, Ga., May 20.—Because of a woman's alleged unfaithfulness her husband is suffering from a wound that may cause death and her admirer is dead with a bullet through his brain, fired by his own hand. The wounded husband is T. T. Strickland and the dead lover is W. W. Wiley.

The tragedy began at the Strickland home yesterday when the husband was shot by Wiley, and ended in the afternoon when Wiley to avoid arrest killed himself in the presence of Mrs. Strickland.

The wounded husband says that when he went home Thursday night he found Wiley calling on Mrs. Strickland. Wiley soon left and Strickland and his wife retired. About 2 o'clock Strickland says he was aroused by a noise and says he found Wiley standing over him. Wiley had a bottle containing strychnine in his hand and told the husband he must take it, as both could not live. The husband sprang from bed and a desperate fight

followed, during which Mrs. Strickland fled. The husband secured a pistol, but it was wrested from him by Wiley who shot his antagonist and fled.

Neighbor's arrived and heard Strickland's story, and Wiley was pursued. The fugitive was found near here with Mrs. Strickland, and ordered to surrender. Drawing a pistol he exclaimed, "I will die before being separated from Mrs. Strickland," and shot himself through the head. Letters found on Wiley indicate that Mrs. Strickland and Wiley had been intimate for months. A dozen notes were found couched in the most endearing terms. One of the notes ended with the sentence "How happy we could be if Tom (meaning her husband) were not here."

All the parties involved in the tragedy belong to prominent families. Mrs. Strickland is a rarely beautiful woman and the disclosures regarding her connection with Wiley have caused a great sensation.

RESOLUTIONS ADOPTED BY THE  
PRESBYTERIANS.

AN APPEAL MADE TO THE PUBLIC

General Assembly of Church Asks that  
Senator Smoot be Expelled from  
U. S. Senate.

Los Angeles, Cal., May 20.—Previous to adjournment the Presbyterian general assembly passed resolutions attacking Reed Smoot in particular and Mormonism in general.

The resolutions state that the Church of Jesus Christ of Latter Day Saints persists in the active encouragement and practice of the crime of polygamy in disregard of their own pledges and oaths to the contrary, in defiance of the laws and constitutions of the state and the United States, and the apostle, Senator Reed Smoot, is a direct representative of polygamy, horn of its system and in cordial sym-

pathy with it as a divine institution, revealed as a law of primary obligation and made mandatory by the most solemn sanctions, and has encouraged its perpetuation and practice by his personal influence as an apostle.

The resolutions declare that Senator Smoot pays his first allegiance to the first presidency and apostolate to which he belongs, and is a reproach to the honor and dignity of the American senate.

The resolutions conclude as follows: "Resolved, that this assembly most respectfully and earnestly calls on the people of the United States to use their utmost endeavor, employing all honorable means, to secure the expulsion of Apostle Reed Smoot from the halls of the national senate, and

Kept Identity a Secret.

St. Louis, May 20.—Leaving an estate estimated to exceed \$100,000, Dr. Francis Tumblety, 82, is dead at St. John's hospital. No relative or intimate friend was at his bedside. Legacies of \$10,000 each to Cardinal Gibbons and Archbishop Ireland for charitable purposes were among his bequests. Dr. Tumblety was suffering from valvular disease of the heart. He came to the hospital under the assumed name of "Mr. Townsend." He was unmarried. He amassed a fortune as an advertising physician 40 or 50 years ago, when that line of medical practice was rare. Dr. Tumblety refused absolutely to tell anything about his life or relatives.

Reach Amicable Compromise.

Chicago, May 20.—The trouble between the freight handlers and the railroads entering Chicago was virtually settled. The management of the Lake Shore road took the initiative and made a proposition to their men, which was accepted. The men in their demands asked for a wage increase of 25 per cent. At a meeting the officials of the road offered to compromise the difficulty with an increase that averages a little more than 4 per cent. After considering the matter for several hours the men agreed to the proposition and each side signed the contract.

The government is also said to have allowed him the subvention of \$15,000 to assist in founding the paper.

MORE TROOPS

MILITARY IN JACKSON TO BE  
INCREASED.

Mountaineers Said to be Active—Will  
Jett's Friends Try to Res-  
cue Him?

Jackson, Ky., May 20.—When additional troops arrived here this morning they were met by a number of citizens who turned out to see what was reported to be "the whole army." They were surprised to see only a few men and remarked that "Them won't do any good if them Perry county fellows turn loose." It is stated that Major Allen's request for getting additional men here is because he has learned that a lot of old time French-Eversole feudists are coming in today to attempt to release Jett and Wade. These men are reported to be friends of Judge B. French one of the attorneys for Jett and White, and Judge Hargis, leader of the Hargis faction. Colonel Williams explained to Major Allen that owing to the lateness of the hour at which the request was received last night, it was impossible to find the men of the Danville company in time, as some of them reside in the country. Major Manser will furnish others from Louisville and they will be here tonight.

Lexington, Ky., May 20.—One company of the National Guard has been ordered to proceed to Jackson to reinforce those now there, and one other company is under waiting orders.

Colonel Williams received a cipher message from Major Embury Allen, who is in command in his absence, in Jackson, stating the necessity for more men. Colonel Williams immediately conferred with Governor Beckham, who approved the call. Colonel Williams then called Captain Lillard of the Danville company by telephone and ordered him to immediately assemble his men preparatory to coming to Lexington.

Colonel Williams later sent an order to Louisville for the company there to be held in readiness for orders to move in case further reinforcements are needed. The message from Major Allen did not state what prompted the requisition for more men.

This will increase the battalion to about 175 men. If this force is found to be insufficient the Louisville troops will be sent to Jackson by special train.

Byron Looker, a prominent resident of Burlington township was in the city on Saturday, shaking hands with his numerous friends.

NIGHTLY

She Places a Light in the Window for  
Him Who Returneth Not—A  
Mother's Devotion.

Indianapolis, Ind., May 20.—An unusual case illustrating mother love and devotion has just come to the attention of Merle Walker, Probate Commissioner of the Marion County Circuit Court. For years Catherine Smith of Fayette street, aged 85, has been waiting patiently for the return of her son. Every time she seats herself at her table she puts two chairs there—one for herself and the other for her son. The plate, knife and fork are always laid for him and every night she places a light in the window to show him that a motherly heart still yearns for him.

She is not insane, but she suffers a constant delusion that her son, who is dead, will return to her. The Probate Commissioner has appointed a guardian to look after her in her last years.

State Senator Indicted.

St. Louis, May 20.—An indictment charging State Senator Frank E. Faris with bribery was returned by the St. Louis grand jury. Thirteen other indictments returned were not made public, but it is stated no unexpected indictments of importance are among the number. Later it was learned that two of the other 13 indictments returned were against Daniel J. Kelley of New York, charging him with bribery and with attempted bribery. This makes a total of seven hoodlums indicted brought against Kelley by the Jefferson City and the St. Louis grand juries.

Destruction of Pine Bluff is not  
Realized.

Pine Bluff, Ark., May 20.—Natives are resting easier. The day of destruction, forecast by Ellen Jefferson for this city yesterday has passed, and, though dark clouds hovered over the town, the cyclone prophesied failed to show up, and by tonight a majority of the 6,000 people who deserted the city

THREW THE SWITCH

To Help the Trainmen But Instead Caused a Wreck  
In Which Several Were Injured--Tramp  
Arrested in Indiana.

Shelbyville, Ind., May 20.—"Happy Hooligan" in the person of a tramp believed to be demented, caused a wreck here in which about 50 passengers were more or less injured. The most seriously injured are Edward Hawley, conductor; Edward Will, engineer; Baggageman Miller; Charles Erdman, a passenger, and two women who refuse to give their names.

The local freight, eastbound, had pulled into the switch which is known as East Shelbyville, and detached the engine for the purpose of taking water at the station near the depot. The brakeman threw the switch at the east end, and, after putting the engine on the main track, left the switch unlocked, intending no doubt to lock it when the engine returned.

At 10:10 the passenger train from Cincinnati came at a rate of 45 miles an hour, and, turning the curve within a few hundred yards of the switch, the engineer noticed a man standing at the switch whom he took to be a trainman on the local. When the train came nearer he noticed that the man threw the switch, and he saw that a wreck was imminent. He at once reversed steam and put on air brakes,

and the fireman jumped for his life.

The tramp became excited and left his post. He went in a brisk run east carrying a telescope as large as himself. The passenger engine plunged into the standing train of freight cars with the result of a telescoped engine and demolished baggage car and smoker and wrecked passenger coach. Engineer Wall remained at his post of duty, while his engine was almost disintegrated. His escape remains a mystery.

Hollis, the conductor of the local freight, pursued the tramp, and after a chase of a mile toward Prescott, caught him and brought him to the city. He was taken before William Pryor, Justice of the Peace and questioned. The fellow said he found the switch unlocked and thought it was wrong, and he threw it to let the freight train out of the switch. But soon the passenger came and he was unable to reverse it until the accident occurred. Dr. Keeney, who came here from Rising Sun, Ind., says that the tramp is a native of that place, named Ruddell, and is of unsound mind. He was taken to jail, but it is thought he will be released when proper testimony is produced.

are expected to return to their old haunts.

Pine Bluff's military company, the Jefferson Fencibles, was put under orders to protect the refugees who fled, but its services were not needed, and there was no trouble of any kind yesterday.

Many white people left yesterday, but trains arriving contain many persons that left, stating "that they had urgent business out of town for the day."

Ellen Burnett Jefferson, the "prophetess" who has caused all the trouble confined in the Pulaski County Jail in Little Rock. It is now conceded that the woman is not insane. She was removed to Little Rock for fear of violence. She will be released in time.

INCOME

Of \$50,000 a Year Sends a man to the  
Devil, Declares the Rev. Dr.  
Hillis.

New York, May 20.—Rev. Dr. Newell Dwight Hillis, pastor of Plymouth church, Brooklyn, says: "An income of \$50,000 a year sends a man to the devil." Dr. Hillis denounced at length the existing social conditions in an address before the annual conference of the Orthodox Friends last night. Among other things he said: "I want to say that we all go to the devil on \$50,000 a year. At least a great many men I know are going to the devil on that sum and very few are escaping it. Once a man has an income of that much money a year he is too apt to forget in the same way that a man forgets to say grace after he has dined."

**OHIO PEN**  
Over 200 Life Men There—One Man Has Been in the Big Columbus Prison 33 Years.

Columbus, May 30—Friday's count at the penitentiary showed 1,553 as against 1,708 for last year. It is anticipated that this number will fall off during the summer months, so that there will be a registration of less than 1,500. The prisoners in general are inclined to look upon the boards of pardon and parole as farces. There are now 213 life men at the pen. Of this number there are many who have served twenty years, notwithstanding the average life of a prisoner is seven years. John Hayborn has been behind the walls longer than any other man, having entered in 1870.  
Hafel Brown, Hamilton county life, was introduced to the water paddle for refusing to work William H. Lee-ford got the same punishment with solitary indefinite added. He also referred loafing to labor. He was received from Clark county for second degree murder.

**RESIGNATIONS**  
Of Zanesville Officers Requested—One of the Four Removed Will Fight for the Place.

Zanesville, O., May 30—Acting, no doubt, on the suggestion of Mayor Deacon, Chief of Police Arter has made formal request of four members of the police force who served under the Holden administration, for their resignations. The officers are John Knight, Tillus Wills, Edward Rox and John Hughes.  
Mayor Deacon admitted the truthfulness of the information. It is also learned that in the case of Willis and Rox they were appointed after the provisions of the new code were known and different action on the part of the mayor could not be expected of them.  
Hughes, it is understood, will comply with the request and Knight, it is also learned, has determined to test the right of the chief to remove him without cause, etc.  
All the officers were given until Monday morning to comply with the request.

Judgment for this sum and the costs of the case were assessed against the defendant.

**SUMMIT STATION.**  
A severe electrical storm passed over this place several days ago, accompanied by a high wind, rain and hail. A large tree on the farm of Robert Maxwell, south of this place, was blown down, killing two fine steers that were standing under it. The lightning also struck and killed two fine milch cows belonging to John Hoskinson, living two miles east of this place, and a fine sow belonging to Louis Harman living four miles south of here was also killed. There were nine small pigs with the sow at the time. They were all deafened by the lightning. The storm is said to have been most destructive since the storm of June 20, 1899, when the hail did so much damage. Every day develops more plainly the damage done by the hail. The fruit is dropping off the trees, and what little remains, will be of an inferior quality. The gardens and growing corn looks as though some one raked it with a shot gun.

**REMOVAL**  
OF THE MAN'S BODY TO NEWARK  
A VIOLATION OF LAW  
But Not One of Much Importance—Mansfield Coroner Wrote to State Officer for Opinion.

Mansfield O May 30—Coroner Bushnell is in receipt of word from Secretary C. O. Probst of the state board of health, with reference to the death of the B. & O. brakeman, Louis Anderson of Newark, who was killed May 16th, by one of the company's trains at Spring Mills. After the employee had met his demise a freight crew picked up the body and transported it to Newark. Ordinarily this is a violation of the law, and consequently the coroner was undecided as to what action he should take in the matter. Some of the authorities at Newark were of the opinion the officer should go to Newark and conduct an inquest the same as he would have done had the body remained at Spring Mills. Coroner Bushnell wrote Dr. Probst in reference to the question at issue and asked him what should be done and whether the railroad company could be held responsible for disregarding the statutes. The state official has replied by saying a similar case was reported some time ago from Hamilton county, and that the matter was referred to Attorney General Sheets, who decided the company could not be held liable for carrying away a dead body after an accident. The act was done through ignorance of the law and not purposely. Coroner Bushnell is also excused from making a trip to Newark and has no further jurisdiction in the case.

**CONDITION**  
Of the Injured Conductor is More Favorable—His Assaultant is Not Yet Arrested.

Zanesville, O., May 30—Dr. E. C. Bush states that he believes H. F. Teeters the Wheeling and Lake Erie conductor who was stabbed by an unknown man at Conesville Thursday night an account of which appeared in the Advocate, will recover.

This is contrary to the opinions entertained by the operating surgeons after they had concluded dressing Teeters' wounds. Then it was believed he would die before dawn.  
Mrs. Teeters arrived in the city from Canton last night at 9:05 o'clock. The Teeters' home is at Cleveland, but Mrs. Teeters and her one child have been in the Stark county city for some time.

It is believed that Teeters was assaulted by a former employee of the Wheeling and Lake Erie road who was recently discharged.

As soon as it became known after leaving Conesville, that Teeters' injuries were of a dangerous character, orders were given to the engineer to reach Zanesville as soon as possible, and a record run was made. From Adams' Mills, making allowances for the stops, the train traveled at the rate of 70 miles an hour.

# CONTROL OF B. & O.

### Rumor That It Had Been Taken From the Pennsy by the Goulds But Nothing Authentic Has as Yet Been Announced.

Chicago, May 30—Have the Gould interests succeeded in wresting control of the Baltimore & Ohio road from the Pennsylvania, and placing themselves in an impregnable position in regard thereto?

This is the question which is now agitating the railroad world. It is confidently asserted by some claiming to know that such is the case, and that the Goulds are now in secure control of the property.

This startling report could not be traced to any authentic source, but it was freely circulated, though it did not find many sponsors for its reliability. Some persons declared it absurd, but at the same time nobody ventured to assert that the fact of such a coup by the Goulds was an absolute impossibility.

Should the report prove to be true the importance of the event is recognized. The meeting adjourned. Daisy camp is now the largest camp of the order in Ohio and feels proud of the fact.

**Third Ward Polls.**

**Memorial Day.**  
Memorial Day, which at first in its observance seemed to be largely restricted to decorating the graves of the nation's honored dead soldiers, seems to be constantly widening in its application everywhere. Now, in addition to its original intention, which should always be held foremost, Memorial Day has come to be observed all over the country as a day of remembrance by the living for the dead. Everywhere thousands of families visit the cemeteries and grave yards all over the land and place their floral tributes of memory and affection on the graves of father, mother, brother and sister, child and wife. This is as it should be and while the day will never lose its national patriotic significance, it is made even more sacred and universal by commingling with it the family custom.

nized as overshadowing anything which has yet been done in the way of consolidation of systems and the forming of new alliances. Possession or control of the B. & O. would undoubtedly make the Gould system of roads by far the most important in the country, irrespective of the question of mileage.

Pennsylvania possession of the B. & O. it is now stated, has been in reality a popular fallacy. Such a thing actually never existed.

The Pennsylvania has not and never has had a majority ownership of the B. & O. Its ownership of that road's security has never amounted to more than one-third of the whole. This, however, with friendly interests which have supported the Pennsylvania regime, has enabled the Pennsylvania to practically control the property, and have it operated in complete harmony with Pennsylvania interests.

# THE MEN AND WOMEN

Who Enjoy the Choicest Products of the World's Commerce.

Knowledge of What is Best More Important Than Wealth Without It.

It must be apparent to every one that qualities of the highest order are necessary to enable the best of the products of modern commerce to attain a permanently universal acceptance. However loudly heralded, they may not hope for world-wide prominence unless they meet with the general approval, not of individuals only, but of the many who have the happy faculty of selecting enjoying and turning the real worth of the choicest products. Their commendation consequently, becomes important to others, since to meet the requirements of the well informed of all countries the method of manufacture must be of the most perfect order and the combination of the most excellent of its kind. The above is true not of food products only, but is especially applicable to medicinal agents and after nearly a quarter of a century of growth and general use the excellent remedy, Syrup of Figs, is everywhere accepted, throughout the world, as the best of family laxatives. Its quality is due not only to the excellence of the combination of the laxative and carminative principles of plants known to act most beneficially on the system and presented in the form of a pleasant and refreshing liquid, but also to the method of manufacture of the California Fig Syrup Co., which ensures that uniformity and purity essential in a remedy intended for family use. Ask any physician who is well informed and he will answer at once that it is an excellent laxative. It is at all eminent in his profession and has made a special study of laxatives and their effects upon the system he will tell you that it is the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually, when a laxative is needed, without any unpleasant after-effects. Every well informed druggist of reputable standing knows that Syrup of Figs is an excellent laxative and is glad to sell it at the regular price of fifty cents per bottle, because it gives general satisfaction, but one should remember that in order to get the beneficial effects of Syrup of Figs it is necessary to buy the genuine, which is sold in original packages only, the name of the remedy, Syrup of Figs and also the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

In contrast with the arbitrary, boodle defending action of the governor of Pennsylvania in signing the bill to muzzle the press of that state, is the action of Judge Madden, in the district court at Emporia, Kas. An attorney there appealed to him to grant an injunction to restrain newspapers from reporting the evidence and allegations in the case before it went to the jury. In refusing to grant the order the court said: "I will not grant an order muzzling the press." Proceeding he said the press was the bulwark of American liberty, and that he had no right to restrain it unless it was clearly shown that what it reported was calculated to subvert the ends of justice.

The individual faction or party that does not want facts published is usually at fault and fears publicity. Ninety-nine times out of a hundred when you find a man that is storming because of publicity of certain facts, you will find that he bears a taint of guilt and he wants the press muzzled or silenced to hide his own meanness. It is right to silence any newspaper that attempts to subvert the ends of justice, but it is wholly wrong to interfere with the good that the press is doing in giving to the world facts that should be given and which enlighten the honest and frighten the dishonest.

**The Veteran**  
By EDWIN L. SABIN

ON the porch he proudly sits,  
In his straight backed wicker chair;  
Buttons bright and coat well brushed,  
Slouch hat over silvered hair;  
Listening with eager ear,  
Peering out with kindling eye,  
For the fife and drum and flag  
When "the boys" go marching by.

A FEW years a-back, and he  
In the ranks was keeping step;  
Now it is his heart alone  
Follows to the warning "hep!"  
Follows through the dusty streets,  
Banners drooping overhead,  
To the oak embowered slope,  
To the bivouac of the dead.

HE can only wait and dream,  
In his sun's declining rays,  
Of the muster rolls that marked  
Other Decoration days.  
And adorns the aisles of Time  
He reviews, with subtle thrill,  
Camp and foray, song and cheer,  
And that charge at Malvern Hill.

ON the porch he proudly sits,  
In his threadbare suit of blue,  
Thinking of the hours ago,  
Hours when he was marching too,  
And his cane upon the floor  
To the drum beats makes reply:  
"Thump" and "thump" and "thump, thump, thump!"  
As "the boys" go marching by.

**The Case of Private Groat**

ON the battle field of Seven Pines, near Richmond, Va., is a government cemetery where in are buried the bodies of Union soldiers exhumed since that bloody contest. One Memorial day some years ago an officer in charge of a detachment of United States regulars went up from Fort Monroe to place flowers over the dead in this cemetery. While they are standing before a grave, let us go back to a certain day in 1862 when the Army of the Potomac was at Yorktown.

One morning a general on a tour of inspection stopped at a shot riddled house in which a man was confined under sentence of death.

"What are you here for, my man?" asked the general.

"Desertion."

"Have you been tried?"

"Yes, general, and sentenced. I'm to be shot on the 15th. I don't mind being shot, so long as I'm not to be hanged. I've seen the picture pinned to the wall, general," pointing to a card photograph of a boy about two years old.

"Well, that's my son Billy. I've always wanted the little chap, when he's grown up, to be a soldier. I consider soldiering the noblest profession on earth. I know it'll be a setback in the service to Billy, bearing the same name as his father—shot for desertion—but that can't worry him. Leastways he won't be disgraced by his father's having been hanged."

"You talk like a good soldier," said the general. "Why did you desert?"

"Well, ye see, general, Billy was sick and ye wouldn't let me go home. I was afraid he would die cavin' on his pop and no pop there to cuddle him up in his arms. Ye see, general, Billy has always been used to goin' to sleep on his pop's shoulder. So I jist went

Judge James H. Clancy of Hornellsville, N. Y., and one of the most prominent members of the bar in that historic town, decided recently that as against Blood and Liver trouble, Dr. David Kennedy's Favorite Remedy was worthy of the highest praise. He says:

"I have used Dr. David Kennedy's Favorite Remedy and strongly recommend it for its good effect in my case for liver trouble and blood disorder. It built me right up and I improved greatly in health."

Geo. H. Tiff of 878 River street, Troy, N. Y., suffered from liver trouble and his blood was all out of order and after using "Favorite Remedy," has this to say:

"For any one suffering from that run down or tired out feeling, caused by blood or liver trouble, Dr. David Kennedy's Favorite Remedy is the best medicine you can buy. I have used it and I know."

The one sure cure for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, is Dr. David Kennedy's Favorite Remedy.

storm cloud of gray passed over his dead body.

When the army came to a rest after that campaign, the following order was issued:

Special Order No. —

(1) Private William Groat, —th regiment — vols., killed in battle, having been pardoned by the president, is hereby released from arrest and restored to duty.

(2) Honorable mention is hereby made of Private William Groat, —th regiment vols., for gallant and meritorious services in working a deserted gun, at which he remained to meet certain death.

Let us now return to the party of United States regulars standing before a grave in the government cemetery. The officer in command, approaching the headstone, read the name:

**PRIVATE WILLIAM GROAT.**

"Groat?" he said. "It seems to me that I am familiar with that name."

"We have a William Groat with us, sir," said a sergeant, saluting—"that man over there."

"Tell him to come here."

A young soldier approached, and the officer said to him:

"Are you the son of William Groat, who was pardoned?"

"Yes, sir, my mother has often told me how he was ordered to 'light out!'"

how he saw the president and returned just before the battle here."

"You are little Billy?"

"Yes, sir."

"And I am the man who told him to 'light out!'"

Then, assuming the position of a soldier, the officer called:

"Attention! This grave will be decorated by Private William Groat, the son of the man whose death was one of the most heroic of the thousands at the battle of Seven Pines."

Private Groat advanced and laid the flowers on the rounded heap.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMeter of Shepardsville, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely."

The Fall of Luzon is a marvelously attractive feature of Pawnee Bill's Historic Wild West. Daring adventures, reckless charges, heroic encounters and stubborn defenses meet and charm the eyes. Step by

step the spectators follow the fog through countless difficulties until its beautiful folds rise triumphant above Aguinaldo's stronghold. Were this the entire performance, it would be worth the price of admission many times to see it, but it is but one of many features, all meritorious, all prepared with great care and enormous expense. The uplifting nature of the numerous attractions of this mighty show was frequently commented upon during the performance, and all present felt they were made better by being present at what all considered to be the triumph of our times in the shape of a show. Man and money could scarcely do more.

He believes, however, that "there is a tide in the affairs of men, that, taken at the flood leads on to fortune" and that the educational profession is too apt to be tideless. About a year ago he became interested in Mr. Bertheau's invention one of those simple ideas of genius which have made many fortunes. He investigated and made many practical tests of its commercial value, and now intends to devote his energy to the capture of the mitten business of the country. The invention, which is covered by a broad patent, consists of a mitten for heavy work which can be worn on either hand, thus wearing twice as long as the ordinary kind.

# LINIMENT

## Taken for Whiskey by Men on Electric Car.

Three Men Became Very Sick at Reynoldsburg  
Four Left the Car at Hebron--Doctors at  
Hebron and Reynoldsburg Treated Two  
of the Men--Others Unknown.

Four men became seriously sick on a Buckeye Lake interurban car between Columbus and Hebron Friday night, three of them being taken off the car at Reynoldsburg, the fourth at Hebron.

A correspondent of the Advocate wired the following from Hebron Saturday noon:

Edward Richards was returning to Hebron Friday night from Springfield for the purpose of spending Decoration day at home, and it is said he had in his pockets two bottles, one containing a little liquor and the other Kitcher's liniment, which he had been using for rheumatism. Three men got on the car at Columbus and seeing the bottles decided to have a drink. It seems they got the wrong bottle and took large doses of liniment.

Gilbert Miner of Hebron, was also on the car, coming from Columbus. When he entered the smoking compartment of the car, Richards held the bottle of liniment up for him to see what the men had been drinking. Miner put the bottle to his lips and before Richards could say "For Heaven's sake Gilbert, don't drink that," Mr. Miner had a mouthful of the stuff. Fortunately he didn't swallow any of it, but by the time he reached Hebron

he was suffering intensely. By Saturday noon his tongue had swollen to twice its normal size.

Dr. G. D. Brown of Hebron who was called to attend the man says that the names of the three men who left the car at Reynoldsburg are unknown to him, but that he heard they were in pretty bad condition. He said three tablespoonsful of the liniment are considered a fatal dose.

A special dispatch to the Advocate from Reynoldsburg, at noon Saturday says that so far as known there the only one who suffered any ill effects from drinking liniment, thinking it was whiskey was a Mr. Beall of Pickerington, Ohio. He got off a car Friday evening and hurried to the office of Dr. Oysart, where he explained that he had taken some medicine thinking it was liquor, but the prompt treatment of the doctor aided him so that he soon left town for home in fairly good condition. "It is not known" in Reynoldsburg what became of the other two men who partook of the liniment, but unconfirmed reports reached Newark and Hebron that one of the men is in a serious condition.

The man who is said to be the most seriously injured is John Hiles, a one legged man whose home is at Lakeside on Buckeye Lake.

## MEMORIAL DAY

Graves of Fallen Heroes at Cedar Hill and Mt. Calvary  
Strewn With Flowers--Appropriate Exercises  
at Cemeteries and Memorial Auditorium.

The exercises appropriate to the proper observance of Memorial Day were carried out, according to the program printed Friday. At eight o'clock Captain John Hiser assembled his detachment in front of Memorial hall, and in wagons they proceeded to Mt. Calvary cemetery, where the graves of the Catholic soldiers there were decorated with appropriate ceremonies. The drum corps accompanied the detachment, as did four of the veterans of the Mexican war in a carriage.

At 10 o'clock the main procession moved to Cedar Hill cemetery, under the command of Chief Marshal J. Russ Moore. Arriving at the "Silent City," the column divided into seven squads, which decorated the graves of the fallen heroes who lie buried there. It was with sincere regret that the veterans noted the absence from the column of the platoon of police, which has always had a place in the Decoration Day parade.

The reason for their non-appearance was given by Mayor Crilly, and was the fact that only a part of the force have uniforms, the new men not yet having purchased them.

A firing squad from Company G fired a salute for the dead, after Judge W. A. Irvine had read Lincoln's Gettysburg speech, and the benediction had been pronounced by Chaplain of the Day, Rev. J. C. Schindel.

The exercises at the Auditorium began at 2 o'clock and were opened by some fine choral music by a number of school children under the direction of Prof. N. B. Yeardley. Hon. John L. Locke of Cambridge, an orator of force and ability, made the address of the day, which was attentively heeded by an audience which nearly filled the Auditorium.

The program closed with music by the school children and a benediction. Friends of the dead man and members of the family stated Friday that Mr. Rumsey had been suffering from insomnia and in their opinion he took laudanum not with suicidal intent, but to induce sleep.

Denver, Colo., May 30—The first positive declaration of a large labor body against a sympathetic strike has been made by the Brotherhood of Railway Trainmen now in convention in this city. It was made in the form of a resolution which received unanimous approval by the delegates, based upon sentiments expressed in the annual address of Grand Master Morrissey.

Complaint Not Sustained.  
Washington, May 30—The interstate commerce commission has decided the case of Ulrick & Williams vs. The Lake Shore and Michigan Southern Railway company and the Cleveland, Cincinnati, Chicago and St. Louis Railroad company.

The complainants asked reparation on account of rates on ice from Hillsdale and other points in Michigan, which, prior to September 3, 1901, were higher over the lines of the defendant roads for the shorter distance to Springfield, Ohio, than for the longer distance to Columbus, Ohio, the rates to both points having been made the same on that date, but it appeared that other and shorter delivering lines compete for the traffic for Columbus, and than the short-line distance to Springfield.

The commission ordered the complaint should be dismissed.

## WESTERN FLOOD

(Continued from page 1)

Kansas City, Mo., May 30—It rained throughout Kansas last night and the downpour may continue all day. In western Missouri there was almost a cloudburst. The Missouri river is five feet above the danger line here this morning. The Missouri and Kaw continue to rise. The valley of the Kaw river between Kansas City and Topeka is one vast lake with thousands of acres of the richest farm lands and numerous towns submerged. The towns are partly submerged and cut off from railway or wire communication are: Salina, Cambria, Detroit, Shapman, Junction City (Fort Riley), Wamego, Manhattan, St. Mary's, Topeka, Oakland, Tecumseh, Lawrence, Lenora, Eudora, Argentine, Armourdale, and Kansas City, Kansas. At the last three points the situation is desperate as they lie practically at the confluence of the Kaw with the raging Missouri. Over 200 people in the last named points find refuge today in police stations and public buildings, which were opened for their care.

Stationary Engineers.  
Miller Association No. 10, National Association of Stationary Engineers, will meet next Tuesday evening. Our meetings are becoming more interesting and the attendance is better. ## MILK

FREED FROM FOREIGN MATTER  
AND IMPURITIES

By New Equipment Just Installed in  
Newark—An Advocate Man Sees  
the New Process.

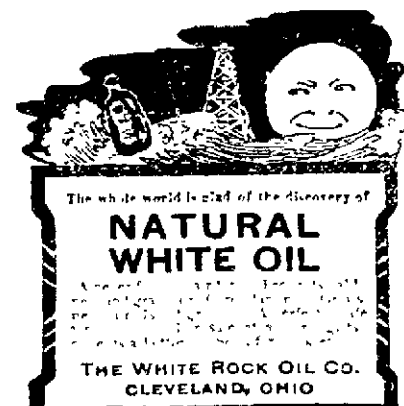

The milk supply of every city is a subject of vital importance to its health and prosperity and one that receives a large share of the attention of every metropolitan board of health.

Milk in its natural state is the best possible medium for the propagation and development of all kinds of bacteria and is too often allowed to become contaminated with dangerous disease germs such as typhoid and tuberculosis bacilli, and in such cases frequently causes an epidemic of these diseases throughout the entire locality supplied with milk from that source.

Messrs. W. H. Davis & Son, proprietors of the Licking County Creamery of this city, have installed a new and up-to-date equipment for placing upon the market a high grade of milk that has been subjected to the most modern methods known for averting infection and contamination of every kind and are thus enabled to guarantee their product to be first class in every particular.

The process, as viewed by an Advocate representative is interesting and highly instructive. The milk, fresh from the cow, is cooled, strained and brought to the factory in sterilized cans, where it is again strained and then passed through a clarifier or centrifuge which removes, by centrifugal force, all foreign matter and impurities. Thence it passes through the Pasteurizer where all disease germs are destroyed by the scientific application of heat and cold, being heated to 150 degrees and cooled to 49 degrees within the space of 30 seconds the sudden contrast causing death to all animal organisms. From the Pasteurizer the milk passes to the bottling machine where the milk is sealed in bottles, previously rendered sterile by two scaldings and an hour's exposure to heat exceeding 212 degrees. In a steel sterilizing oven. After being bottled the crates containing the bottles are filled with cracked ice and the milk is kept in that condition until it reaches the consumer.

Messrs. Davis & Son have opened up a new milk depot at 61 Hudson street and placed new wagons on the street to supply the trade at their retail prices and will at all times be supplied with high grade milk, cream, butter and buttermilk and will be pleased to receive a share of the public's patronage.

## SOCIETY EVENTS OF THE WEEK.

It has taken many years for the white people to recognize and appreciate the fine arts of the American Indian. A century and more of effort to exterminate the red man, it is found wise to allow him to dwell in peace in his own country. Not until the spirit of war was exorcised did the white man give a thought to the fine arts of his red brother. Now, the rugs, blankets and baskets are enthusiastically sought after, and counted among the treasures of their possessors. Every pattern has a meaning, and the blending of colors is wonderful. The baskets are not only beautiful, but are marvels of durability. So popular have they become that society ladies are being taught the fascinating work, and are making many beautiful baskets. Even Newark has a basket class which was formed about Easter time under the direction of Miss Annie McCully of Dayton. With the closing of the lessons the interest did not even lag. Last week, on Wednesday, Mrs. W. W. Neal entertained the class at her home on North Fifth street. There were a number of real Indian baskets on exhibition, a package of five different styles, with the material and directions and the baskets begun. After several hours' work Mrs. Neal served tea and small cakes. Again on Monday afternoon, Mrs. Henry S. Floek entertained the basket makers with a porch party. The porch was furnished with chairs and tables and rugs, and quantities of material was provided. Near the steps Master John Sherwood Fleck had pitched his wigwam, and there he sat at the door, also busy at work. During the afternoon sherbet and cakes were served.

On Thursday afternoon the home of Dr. and Mrs. Baldwin was the scene of a beautiful reception which was given by Mrs. Baldwin, Mrs. Dr. Sedgewick, and Miss Baldwin. Receiving with the hostesses was Mrs. Chas. Baldwin, of Columbus. The guests were received at the door by little Miss Katharine

Sedgewick who was very charming, dressed in white. The parlors were handsomely decorated with palms and ferns and cut flowers, and from among the plant came the sweet strains of the mandolin and guitar.

The table in the dining room was decorated with carnations and festoons of smilax from the chandelier to the corners of the table. Those assisting were Mrs. Omar Crane, Mrs. Henry Woodbridge, Mrs. D. M. Black, Mrs. John H. Franklin, and Mrs. Wm. L. Prout. Miss Ethel Pitser and Miss Atta Beecher, presided gracefully at the punch bowl. The guests from Cranville were Mrs. B. I. **WEDDING ANNIVERSARY.**

The guests were Mr. and Mrs. John Hiser Sr., the Misses Josie and Katie Buckel, George Buckel, Mrs. Jas. Haughey, Mr. and Mrs. Warren Long, and the Misses Grace, Bess and Zella Haughey as well as Master Donald Hiser. It was an event that will not soon be forgotten.

**AGE NO BAR.**  
Everybody in Newark is Eligible.

Old people stooped with suffering. Middle aged courageously fighting. Youth protesting impatiently. Children unable to explain. Baby crying, can't tell why. All in misery from the kidneys. Only a little backache first. Comes when you catch a cold. Or when you strain the back. Backache is the first step of kidney trouble.

Many complications follow. Urinary disorders, diabetes, Bright's disease. Doan's Kidney Pills cure backache. Cure every form of kidney ills. Plenty of Newark proof that this is so.

John Nelson of 41 Thirteenth street, says: "When I enlisted in the 27th Ohio Vol., under Capt. Nichols, I passed medical inspection creditable. When I was discharged my back bothered me and at intervals every after I had attacks of kidney complaint. My back was weak and painful across the joints and I was also greatly distressed by a urinary weakness. I took every kind of medicine but it availed me nothing. I tried Doan's Kidney Pills, getting a box at Crayton's drug store. After I used them my back ceased to ache and felt stronger, besides mending my back they also corrected the urinary weakness. To a man of 81 years of age this is a great comfort."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute. 130

**MISS MAY MARKELL,**  
A Society Belle of London, Canada.

**MISS MAY MARKELL** of London, Ontario, Canada, is a beautiful girl who knows what suffering is and Wine of Cardui has brought her back to health. She is one of the social favorites of her home and her recovery to health has permitted her to enjoy the company of her many friends instead of lying on a bed of sickness and suffering. For the health she now enjoys she gives credit to Wine of Cardui. She writes:

"I have found Wine of Cardui an excellent remedy for female trouble. I suffered for three years with terrible bearing-down pains at the menstrual period. I could hardly stand on my feet and was never real well. Wine of Cardui was the only medicine that I could depend on to do me any good, as I tried several with no success. Wine of Cardui cured me and I have now enjoyed perfect health for two years, and give you all the credit for I know you deserve it."

For a young girl Wine of Cardui is the best remedy to guide her through womanhood by starting the menstrual flow in a healthy and natural manner. Menstruation started right is very easy to keep regular through the years of mature womanhood. Then the "change of life" need not be feared. Thus Wine of Cardui is woman's best relief from youth to old age. A million women have secured blessed relief from their sufferings by taking this treatment. It relieves menstrual troubles in an incredibly short time. In a simple case of deranged menses Wine of Cardui never fails. To relieve disordered menses is to remove the cause of other female troubles. Any physician will tell you that to remove the cause of a disease renders the cure easy, in fact seldom fails to complete the cure. If you would have the same relief which Miss Markell secured try Wine of Cardui. You can take it without an examination and without any publicity whatever. You can take it in the privacy of your home and secure just as much benefit as if a doctor had prescribed it for you. Thousands of women are feeling the vigor of returning health by taking Wine of Cardui.

**WINE of CARDUI** A million suffering women have found relief in Wine of Cardui.

### Music Memorial Day

By M. K. RUTLEDGE

[Copyright, 1903, by W. L. Vail.]

MEMORIAL day music has a double office to perform—that is to say, it is adapted to heighten or inspire two and even more than two widely different feelings. The dead heroes are remembered because they were comrades, and they are honored because they died gloriously for the country.

Since the exercises of the day are a festival to commemorate noble deeds the mind is attuned to earnestness and soberness, not, however, to mournfulness. Sometimes the feelings swell to regions so lofty that the solemn and majestic strains of "The Star Spangled Banner" alone have strength to bear up the mighty impulse. That noble tune and the still nobler thoughts it suggests when the heart is filled with

VETERANS SINGING "AULD LANG SYNE."

stirring memories never appear too exalted for any stage of the ceremonies. The words and air of "The Red, White and Blue" will often seem extravagant and out of harmony with experience even on the Fourth of July, but after the memorial praises have been spoken over the ashes of the dead soldiers and the strewn flowers have thrilled the senses with their bright hues, stirring the soul to a deep response, the voice joins in the chorus as naturally and as irresistibly as the feet of dancers at a ball move to the measures of a waltz.

The army and navy forever!  
Three cheers for the red, white and blue!

Military pageantry is not so easy for the participants as outsiders imagine, and the veterans come to the parade ground on Memorial day more or less fatigued with the work of preparation. The air "Hail to the Chief" which greets the leader is restful for the nerves and at the same time slowly stimulating. It acts as a tonic, not as a spur, for a spur is not needed. The feelings will wake up later on when the column gets into swing and some marching tune, old or new, native or foreign, puts spring into the jaded muscles and spirit into every faculty. Veterans are not past the stage of enthusiasm even though they went "marching on" forty years ago. The average age of civil war survivors is sixty-two, which means that there are as many below that figure as above it.

Of course the ranks become weary on Memorial day with waiting and maneuvering and later with tramping in close column, but they soon rally to the cheering notes of "Marching Through Georgia," and if they acted up to their feelings the chorus would be shouted on the march by lungs powerful enough for the men of an active army.

After the ceremonies at the graves are ended and the marching enthusiasm is somewhat staled the heart is ready for melodies of pathos and patriotism. Even the newest popular favorites are welcomed if tuneful and sincere. At this stage, also, the life and drum give a musical novelty and stir afresh feelings which have grown a bit somber and heavy. The recruiting of fifers and drummers in G. A. R. posts was a happy stroke of genius. A full band is expensive on Memorial day, and only a large and prosperous post can afford to retain one, but the sons of the veterans yearn to be in the procession somehow, and they can file and drum.

There is so little room for the bugle in military functions that its notes never seem commonplace. When it sounds the calls of assembling, of attention, of marching and halting, the mind of the veteran sweeps back over the twoscore years as readily as it would to the crack of rifle or the roar of cannon volleys.

And at the end of it all when the speech making, the marching, the tribute giving, are over, comes the social reunion as a prelude to farewells which may be the last. With hands joined in square or circle, the music playing "Auld Lang Syne," the veterans raise the sober and tear moving song, every verse of it, every word of it, reluctant to reach the end.

DR. YARNELL

Is One of the Oldest and Most Experienced Medical Specialists in Ohio, and has Probably the Largest and Most Complete Record of Difficult Chronic Cases Successfully Treated of Any Physician Now Practicing in the State.

#### Why Catarrh is Not Cured:

The majority of persons afflicted with this dread disease have either applied to inexperienced physicians or attempted to doctor themselves by taking patent medicines or the numerous alleged Catarrh Cures which flood the market. A moment's intelligent thought will convince anyone that poor whisky, disguised with aromatics, will not cure Catarrh, even though its merits are attested by the names and faces of Cheap Congressmen and other notable persons. Yet the sale of this stuff for Catarrh is over half a million dollars a year.

It is an established fact, confirmed by the experience of every Catarrh Specialist, that Catarrh in all its forms, when rightly understood and properly treated, is as curable as any obstinate chronic disease. No two cases of Catarrh are precisely alike. Remedies adapted to one case may prove a positive injury to another. Each case must be studied and treated separately—and it is manifestly impossible for the most skillful physician to prepare one medicine that will meet all the varied conditions presented in the different cases of Catarrh, and no one should feel discouraged and give up the hope of a permanent cure because they have failed to obtain satisfactory relief by these "ready-made remedies" or from physicians who have given catarrh no special study.

### QUARTETTE

Of Notorious Criminals Escaped from Jail at Jackson, Tenn., on Friday.

Jackson, Tenn., May 30.—A quartette of notorious criminals escaped from jail here on Friday. The missing men are Sam Miller, sentenced to be hanged for the murder of his wife at Memphis, last Thanksgiving Day; Geo. Carroll, a desperate bank robber who cracked a safe at Whiteville, securing \$2,000 and who was sentenced to 12 years in the state penitentiary; Geo. Ray and Lee Kahn, noted hold-up men, who broke into Heron's liquor store in Memphis with two other masked men and after a terrible pistol battle, in which George Day was wounded in the arm and Heron shot to pieces and almost killed, succeeded in getting away with several thousand dollars. Each was sentenced to 15 years. Day and Kahn occupied a cell adjoining Carroll and Miller in the Jackson jail. Carroll procured a saw and cut the bars leading into Day and Kahn's cell and from that cell they sawed out of jail. Bloodhounds were secured and every effort is being made to apprehend the fugitives.

## JOHN CALVIN

SUBJECT OF REV. L. S. BOYCE'S ADDRESS SUNDAY.

Second in the Series on Great Religious Leaders of the Past at the Y. M. C. A. Meeting.

The second address in the series on "Great Religious Leaders of the Past," at the Sunday afternoon meetings at the Y. M. C. A. will be given tomorrow at 2:30 o'clock by Rev. L. S. Boyce, pastor of the First Presbyterian church. He will present a study on the life and work of "John Calvin." It goes without saying that Mr. Boyce will give an exceedingly interesting address on a truly great character—a man whose ideas influenced religious life from his day to this.

A cordial invitation is extended to all men to attend. Several special musical numbers will be rendered by the choir of the First Presbyterian church.

Except when flooding the Arkansas river, in Oklahoma, is not a formidable stream. It gains in magnitude after

passing the Indian Territory, and in the vicinity of Fort Gibson becomes stronger and deeper.

## CHOIR FESTIVAL

The festival held in Trinity church, Columbus, on Ascension Day, in which the Newark Trinity church choir participated, will be repeated here on next Monday night at 7:45. There will be at least 100 voices in the choir and the event will be one of the most importance to all lovers of music. The program includes a great number of the finest selections of sacred music which were sung with such success in Columbus and the people here are urged to a true appreciation of the magnitude of the undertaking. It is hoped that liberal contributions may be received toward the rather heavy expenses connected with the work. All who attend are asked to come prepared to give in fair proportion to what they receive.

## The Daylight Store of Newark.

In planning this new store, we have made a special study of the lighting question and now that the stagings are down, and the store is flooded with a soft, bright light, the result is more than satisfactory.

The skylight is twenty feet square, and with prism glass in the windows on three sides of the store, daylight is thrown into all corners. We are hustling up stairs, marking seven car loads of goods.

The floor-cases will be in place on Tuesday, and our shelves will soon be filled with goods ready for sale.

Watch Papers for Date of Opening.

## UNIQUE

PARTY IS GIVEN TO FRIENDS BY MISS SAINE.

A Spring Tour of the Continent—The "Ticket" for the "Trip is Given Below.

Miss Carrie Saine, a teacher in the schools at Granville, gave a very unique party to her college friends of Denison university recently.

The invitations read:

"I am making up a party for a spring tour of the continent. It will be very select and I should like the pleasure of your company among the tourists. It will be perfectly safe for you to come alone, as I shall have an unlimited number of chaperones on hand. I have had large experience in all modern modes of travel, having frequently gone on extended trips outside of Granville township on the trolley line. Being a linguist of no mean ability I can act as interpreter to any form of United States language. The expense will be slight. Several porters will be on the train, but always in the 'next car' when wanted. They have agreed to be paid in their 'own coin' and ask 'no quarter.' The excursion train will leave 'The Grand Central Station,' Saturday, 2:30 p. m., May 16th, 1903. No dining car attached. No extra charge for meals if you bring them with you, which is about as cheap as you could get them elsewhere. The itinerary includes stops at most of the leading cities and points of interest on both hemispheres. The accompanying coupon will entitle you to a ticket and all the privileges of the party. Present at ticket office to be exchanged for an excursion ticket on 'F. F. & F. R. R.' Very truly yours,  
"Patrick Gilweightsaine,  
"Successor to Thos. Cook."

The itinerary was a long one and as the train was not the Twentieth Century limited, each stop was made and the time all too short to enjoy the trip.

**Deafness Cannot be Cured.**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
